# Sample Material Declaration

Synthetic evidence for testing claim assessment

DOCUMENT DETAILS

## Verity Sample Bottle

Document type: Sample material statement
Statement date: 14 March 2026
Scope: Bottle body only

MATERIAL COMPOSITION

| Material | Share by mass |
|---|---|
| **Post-consumer recycled aluminum** | **80%** |
| **Primary aluminum** | **20%** |

SCOPE AND LIMITATIONS

The percentages above describe the metal bottle body by mass. The cap and inner liner are separate materials; their recycled content has not been measured.

This sample statement provides material-composition information only. It does not establish that the assembled bottle is recyclable, and it includes no recyclability certification.

TEST NOTE This fictional one-page document is intended for local software testing only.
